Licenses.

Entry Ergosoft RIP 1 Entry Printer 1'790 EUR	Large Ergosoft RIP 1 Large Printer 2'790 EUR	XL Ergosoft RIP 1 XL Printer 3'990 EUR
---------------------------------------------------------------------	---------------------------------------------------------------------	---------------------------------------------------------------

Ergosoft RIP always comes fully featured. The license price calculates based on the level of the printer(s) you will host on the RIP.

The license price includes one specific printer of the respective level (Entry, Large, XL) and one Entry cutter.

The Maintenance program is free for the calendar year of the purchase.

In multi-level fleets, the printer in the highest level indicates the license prices.

Printers can be added at any time. Additional fees may apply when adding the first printer higher than the purchased license level. Entry and XL Cutters can be added anytime.

Add Queues.

Add Printers to your configuration.

EntryPrinter 790 EUR	LargePrinter 990 EUR	XLPrinter 1'590 EUR
---------------------------------------	---------------------------------------	--------------------------------------

Add Cutters to your configuration.

EntryCutter 490 EUR	XLCutter 990 EUR
--------------------------------------	-----------------------------------

Add-On.

Add-Ons are powerful extensions to your Ergosoft RIP.

Networked Department 990 EUR

License Container (required)

USB license container hosting the Ergosoft license. Often referred to as “a USB dongle.”

The license container keeps your license and software safe.

You are required to purchase at least one License Container to host your Ergosoft RIP license.

For users looking to ensure a quick backup protocol, we suggest purchasing a second dongle, which provides an additional license container if the unlikely event of hardware damage should occur.

We recommend that Re-sellers purchase stock dongles to avoid delays when selling software to customers.

To test and evaluate Ergosoft 17, we offer hardware-free CmAct licenses.

1 License Container Box

Includes 1 USB Dongle with Ergosoft RIP box.

60 EUR

1 License Container only

Includes 1 USB Dongle.

50 EUR

>5 License Container Box

Includes USB Dongle with Ergosoft RIP box.

40 EUR per unit

Includes USB Dongle.

30 EUR per unit

Annual License Maintenance

Licenses

Entry	Large	XL
270 EUR	420 EUR	600 EUR

The Maintenance program is free for the calendar year of the purchase.

The annual license maintenance includes the maintenance for one printer of the respective level (Entry, Large, XL) and one Entry cutter.

The annual queue maintenance for additional printers or cutters is calculated based on the license configuration. To manage the maintenance fees, you can return unused printer- or cutter drivers free of charge.

Dealer Discount on maintenance is limited to 20%.

License Updates

V15 Version Update 990 EUR	ES16 Version Update 690 EUR
------------------------------------------------	-------------------------------------------------

We put together a fantastic offer for all our Version 15 and Ergosoft16 users to switch to the new, continuous integration releases:

- Get the newest, full-featured Ergosoft RIP solutions releases
- Enjoy the maintenance program for free for the first calendar year: Access to all new releases, direct support from Ergosoft and our Partners.
- Optimize your fleet configuration, including one free driver switch per calendar year within the same or lower level.
- "What's yours is yours" - you keep full access to your V15 or Ergosoft16 after the update.

Transition Period throughout 2023

Ergosoft 16 licenses purchased in 2023

Free access to new releases, incl. maintenance fee for the current calendar year upon request.

Offer available until the end of August 2023.

Ergosoft 16 licenses purchased before 2023

Flat fee offer to access the new releases, incl. maintenance fee for the current calendar year upon request.

Available for both, Essential and Production licenses.

Offer expires by the end of 2025.

Ergosoft may adjust flat fee prices as time progresses.

Version 15 licenses

Flat fee offer to access the new releases, incl. maintenance fee for the current calendar year upon request.

Available for both, Essential and Production licenses.

Offer expires by the end of 2024.

Ergosoft may adjust flat fee prices as time progresses.

Transition Phase

1. To prepare for unexpected technical issues with the Ergosoft April 2023 release (Unicode), users purchasing Ergosoft 17 get free access to Ergosoft 16 upon request. This offer is limited until the end of August 2023.
2. Ergosoft 16 and the Ergosoft 16 pricing (as of today) remain available for Re-sellers until the end of 2023. This offer does not include Ergosoft 17 licenses or services at all.
3. Dealers with open deals at the time of the Ergosoft 17 release can choose to replace the offers with an offer based on the new pricing.

Included Modules.

JobComposer

Visual composing module, hosting all image, job, color, preset, preflight and process features. Highly flexible and customizable.

HotFolders

Powerful prepress Automation module based on HotFolder technology. Unlimited number of HotFolders included.

QueueManager

Queuing module providing status, progress priority, and details for every job. Filter and search features included.

Customer Journey - New Printer Sales

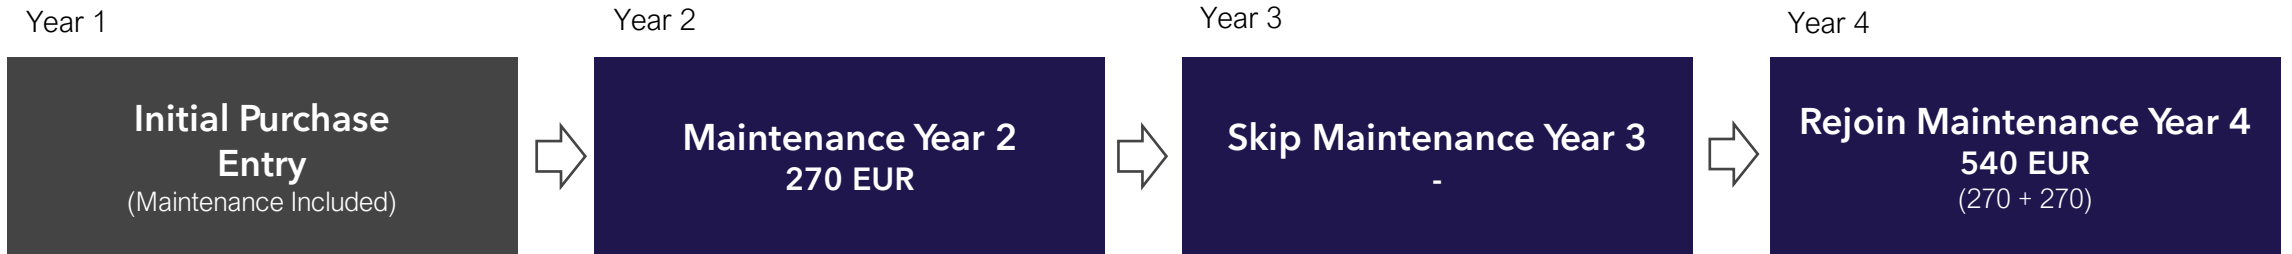

The maintenance fee for the current calendar year is already included in the software price.

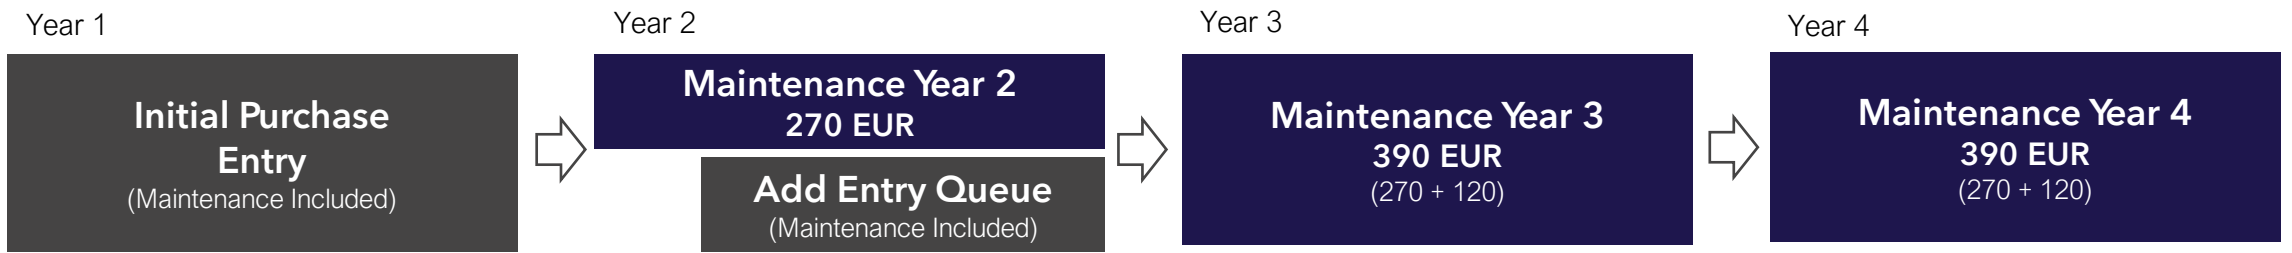

Customer Journey - Maintenance

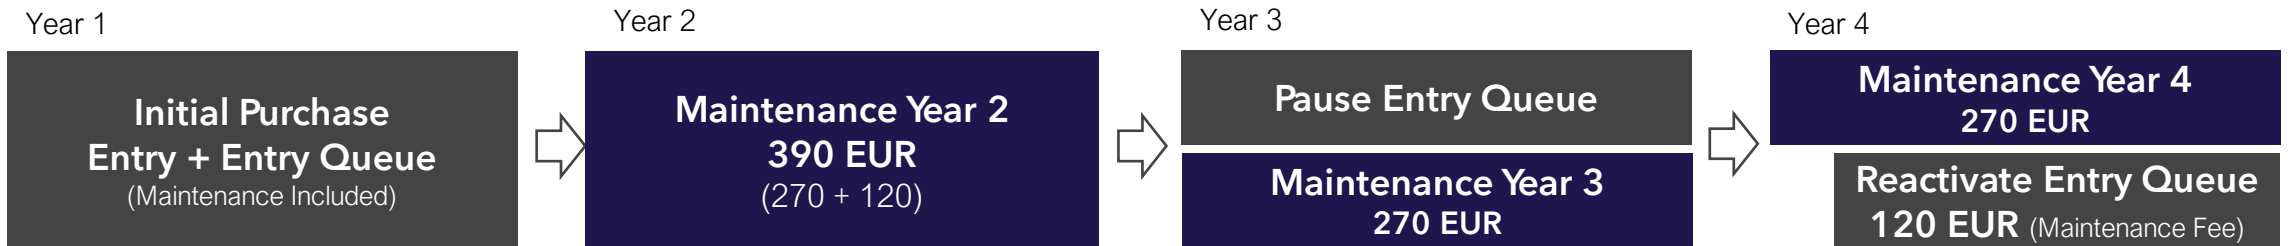

Example 1 - Skipping Maintenance in Year 3

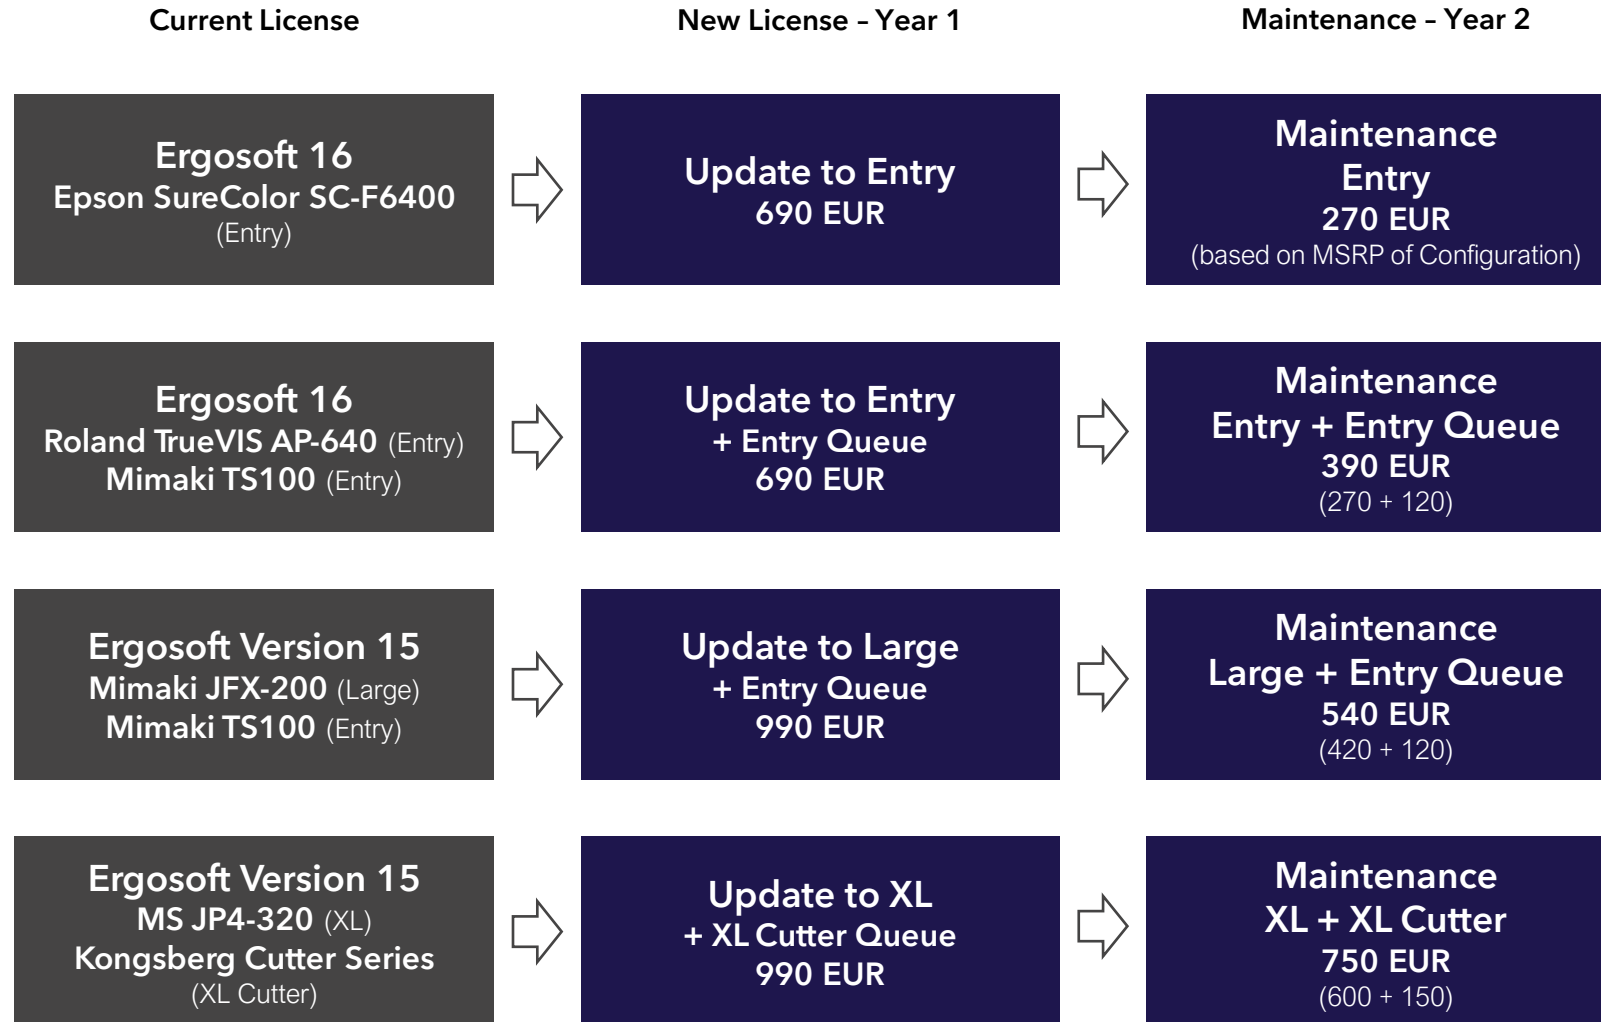

Example 2 - Adding additional Queue in Year 2

Example 3 - Pause Entry Queue in Year 3

Customer Journey - Update Previous Versions

The maintenance fee for the current calendar year is already included in the software price.

The customer can replace one driver with a new driver of the same or lower category free of charge per calendar year. The first driver switch is available with the purchase of the update.

Printer Level 1 Queue is to be replaced by a specific printer driver during the update process.

Customer Journey - License Upgrades

Example 1 - Upgrade Entry to Large (replacing Entry Printer)

Example 2 - Upgrade Entry to Large (keeping Entry Printer)
